KRAKEN KOFFEE 2023 HALF-YEAR REVIEW

Welcome to the 2023 Sales Review report for Kraken Koffee's NEW FLORIDA SALES REGION. In the visuals below, you will learn all about our brilliant team's performance across our three flagship stores. We'll cover insights from a range of strategic areas, pinpoint specific opportunities for improvement, and forecast the second half of 2023

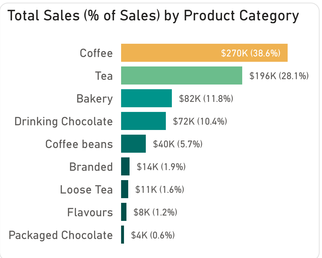
Total # of Purchases	Total Sales ($)	Average Order Size	# of New Stores	Total # Of Menu Items	Best Seller ($)	Best Seller (Quantity)
149,116	$698,812	$4.69	3	80	Davy Jones' Sustainably Grown Organic Hot Chocolate Lg	Crow's Nest Croissant

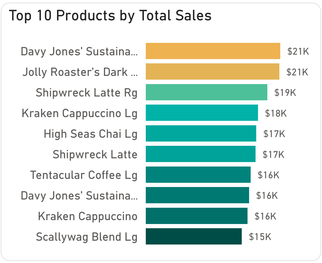
So far in 2023, we have recorded total sales of $698,812 across 149,116 transactions, resulting in an average order size of $4.69.

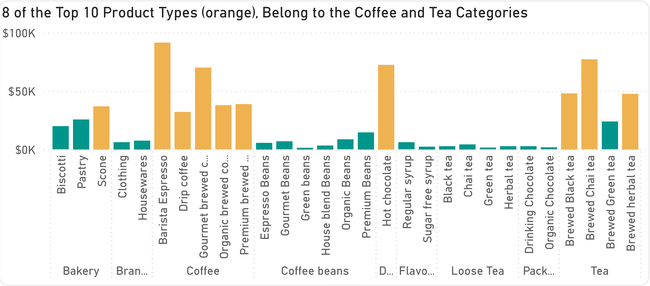
Looking specifically at our three new Florida locations, average order size varies by city: $4.81 in Orlando, $4.66 in Tampa, and $4.59 in Miami.

While Davy Jones' Sustainably Grown Organic Hot Chocolate Lg is our top seller by revenue, performance differs across locations. For instance, Jolly Roaster's Dark Chocolate Lg leads in Orlando, whereas Civet Cat is the top earner in Tampa.

Which Stores and Products are Driving Revenue so far in 2023?





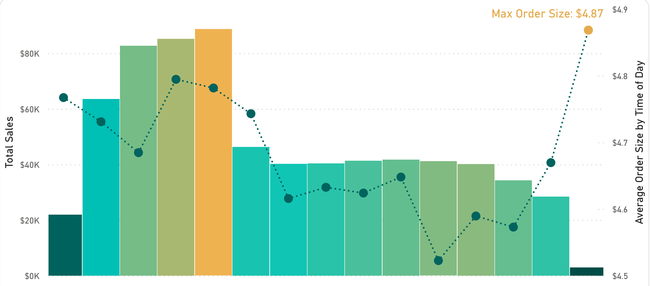


At our Florida locations, customer spending peaks around 10:00 AM - no surprise for a coffee company. Monday is our strongest sales day, while Saturday sees the lowest revenue.

Sales don't really build until 7:00 AM and drop off sharply after 9:00 PM. In total, transactions outside that 7:00 AM-9:00 PM window account for only $24,836, or 3.6 % of total sales from January to June 2023.

Given this trend, our management team is evaluating potential adjustments to store operating hours across all three Florida locations to better match customer traffic and optimize operations.

What Time of Day do our Florida Locations see the most revenue?



Day	6:00	7:00	8:00	9:00	10:00	11:00	12:00	13:00	14:00	15:00	16:00	17:00	18:00	19:00	20:00

$1,409,207

Projected Total Sales FY 2023

Based on our average daily sales so far in 2023, we're projecting $1,409,207 as a reasonable year-end target across our three Florida locations.

That said, this doesn't fully reflect the momentum we've built heading into summer. As you can see on the right, average daily sales in Q1 were $2,852, but jumped to $4,859 in Q2 - a big leap.

If we can keep that pace going, we're confident our new Florida stores will help us blow past our initial target.

While the number above represents our sales target, maintaining our current trajectory would put us on track to reach an estimated $1,592,839 in total sales FY 2023.

What are the Projected Sales Figures for the full Fiscal Year 2023?

Store	Day	Jan	Feb	Mar	Apr	May	Jun
Miami	Mon	$4.5K	$3.0K	$3.8K	$5.8K	$9.2K	$7.6K
